---

Senior Frontend / Full-Stack Developer with 5+ years' experience delivering performant, accessible, and scalable web applications. Specialised in Angular, React, TypeScript, and modern UI architecture. Proven progression from junior to senior at RSPB, leading front-end quality, architecture, and mentoring across large-scale digital platforms. Passionate about clean UI engineering, UX craft, and building reliable, user-centred products.

## CORE SKILLS

---

**Frontend:** Angular, React, Next.js, TypeScript, JavaScript, RxJS, HTML, CSS, Sass, Tailwind

**Backend:** C#, .NET Core, Node.js, Python

**Architecture:** Design systems, component architecture, REST APIs, state management, CI/CD, TDD

**Testing:** Cypress, Jest, Testing Library

**Tools:** Git, GitHub Actions, Azure DevOps, Jira, Storybook, CMS platforms, WebSockets

## PROFESSIONAL EXPERIENCE

---

**RSPB** - England (Remote)

**Senior Software Developer**

2024 – Present

- Lead front-end engineering across RSPB's flagship site (millions of monthly visitors), setting technical direction and improving performance, accessibility, and UI consistency.
- Driving architectural decisions across Angular applications and internal component libraries.
- Manage and mentor developers through 1:1s, goal setting, technical coaching and career progression.
- Own front-end standards and automated testing strategy, improving reliability and reducing regressions.
- Enhanced stability across products by increasing automated test coverage.

**Software Developer**

2022 – 2024

- Delivered large-scale Angular features used by millions of users, improving usability across donation, membership, and content journeys.
- Integrated backend APIs (C# / .NET), enabling more reliable and scalable data interactions.
- Built and maintained a shared design system (Storybook), accelerating delivery across multiple product teams.
- Introduced TDD practices with Cypress and testing libraries, increasing reliability and reducing regressions.

**Junior Software Developer**

2020 – 2022

- Improved RSPB.org.uk performance and accessibility through iterative UI enhancements.
- Migrated project management from Azure DevOps to Jira, improving team workflow efficiency.

**IAmFlexi** – Group Project, England

**Frontend Developer**

2018 – 2019

- Led front-end development for a job-matching platform, delivering accessible, mobile-responsive interfaces using HTML, CSS, JavaScript, and Django.

## PERSONAL PROJECTS

---

**Family Tree App** – React + React Flow + Supabase

Visual graph-based family tree editor with real-time updates, authentication, and database persistence.

**Planning Poker (Agile Estimation Tool)** – Next.js + WebSockets + Node.js

Real-time estimation tool with multi-user sync, built in a scalable monorepo designed for future collaborative apps.

**Portfolio** – [www.shahir.world](http://www.shahir.world) – Next.js + Tailwind

High-performance personal site with animations, SEO optimisation, and strong Lighthouse scores.

## EDUCATION

---

**Queen Mary University of London** – BSc Computer Science (1:1)

2016 – 2019

**Stanmore College** – BTEC Computer Science (D\*D\*D\*)

2014 – 2016
